

All dividers come in packs of 6 and includes 6 bolts,nuts,washers to fasten them securely to the shelf. Each shelf is pre-slotted to accept the lugs(1) and to fit the divider it is necessary to drill a 4.5mm hole through the mat, in line with the hole in the shelf, and then slot the divider in and bolt it as per the diagram.
The dividers are Left and Right handed. where possible , order an even ammount of each, as the mat "sits" better if you do.

ITEM NO.	PART	QTY.
1	small divider	1
2	M4x16 bolt	6
3	4mm Form A washer	12
4	M4 nyloc nut	6
